# Just Live Lite 2025

Streamlined Live SDI/IP Playout for macOS

Just Live Lite is a streamlined single-channel Live Production playout application designed to simplify your live broadcasts.

It delivers effortless video playback and realtime graphics, while giving you complete control over your production workflow.

Live Playout
Manage and control live production playout of video clips and a single layer of static or realtime graphics, all from one intuitive interface.

Switch-To-Live
Easily manage incoming live input signals such as live studio signals or satellite feeds, and send them to the SDI or any supported streaming output.

SDI, NDI®, SRT, UDP, ST-2110 Support
Native SD/HD and UHDp60 SDI, NDI, SRT, UDP, ST-2110 playout using qualified hardware from Apple (Apple silicon required), AJA or Blackmagic Design (SDI).

Growing File Support
Instant playout of growing files in Live Productions. Great way to accelerate your workflow during a Live Show.

SDR, HDR Color Spaces Support
Comprehensive compatibility for both SDR and HDR content, ensuring a seamless and secure broadcast playout experience.

Mixed Frame Rate Support
Videos encoded with a standard broadcast timebase play out smoothly, with every frame automatically matching the selected channel's timebase for perfect synchronization.

Smart User Interface
The smart graphical user interface provides an unlimited, and frame-accurate review and preview of all selected video items. Activate your license online to facilitate license management.

Industry Compliance
Major broadcast file format and codec support, back-to-back playout of mixed container formats, codecs, aspect ratios, pixel sizes and field orders.

Static and Realtime Graphics
From simple lower-thirds to interactive realtime graphics. Use third-party data for news tickers, stock exchange updates, or weather forecasts, with Fill & Key compatibility (SDI) for singular.live, Viz Flowics, and SPX templates.

Finished Actions
Advanced finished actions for each clip with Play Next, Cue Next, Reload, Hold, Recue and Loop options.

Supported Codecs
- DV-PAL, DV/DVCPRO-NTSC
- DVCPRO, DVCPRO50, DVCPROHD, HDV
- All Apple ProRes Codecs
- HEVC (H.265)
- XDCAM EX/HD/HD422
- MPEG-2 , MPEG-4, H.264
- MPEG IMX (30, 40, 50)
- AVC-Intra, XAVC-Intra
- Avid DNxHD®/Avid DNxHR® (decoder)
- JPEG
- Apple Animation Codec

Supported Containers
- MOV, MP4, M4V
- MPG, MPEG
- MXF

System Requirements
- Apple Mac mini, Mac Studio, Mac Pro 2023 - Apple silicon (M1-M4).
- Apple macOS Sonoma, macOS Sequoia, macOS Tahoe.
- Support for AJA and Blackmagic Design video devices.
- One-time online access for license activation.
- For detailed system requirements please consult the online user manual or contact the ToolsOnAir staff.

Supported Frame Rates
- 25, 29.97, 30, 50, 59.94, 60
- Supported frame rates are container and codec specific. Codec support depending on installed Apple Pro Codecs.
