# Just Play Lite 2025

Streamlined Automated SDI/IP Playout for macOS

Just Play Lite is an automated single channel 24/7 Master Control Playout application supporting SD, HD, and UHD resolutions.

It seamlessly integrates video playout with live feeds and the delivery of scheduled static or realtime graphics.

Streamlined Master Control Playout
Manage your 24/7 Master Control single-channel playout in realtime by using Timed, Chained, Auto-Duration, Locked and Gap playlists.

Smart User Interface
The smart graphical user interface provides an unlimited and frame-accurate review and preview of all scheduled video items. Activate your license online to facilitate license management.

Switch To Live
High-quality video, audio and realtime graphics playout with the ability to switch to live using a single SDI video device input or NDI®, SRT, UDP, and ST-2110 IP sources.

SDI, NDI®, SRT, UDP, ST-2110 Support
Designed for SD/HD and UHDp60 SDI, NDI, SRT, UDP, ST-2110 playout of video and multiple layers of static or realtime graphics using Apple silicon hardware and AJA or Blackmagic Design devices for SDI I/O.

Static and Realtime Graphics
From simple lower-thirds to interactive realtime graphics. Use third-party data for news tickers, stock exchange updates, or weather forecasts, with Fill & Key compatibility (SDI) for singular.live, Viz Flowics, and SPX templates.

Industry Compliance
Major broadcast file format and codec support, back-to-back playout of mixed container formats, codecs, aspect ratios, pixel sizes and field orders.

Schedule Your Way
Schedule content weeks in advance with a user-friendly timeline, the traditional list view (with metadata support) and a convenient calendar function.

Mixed Frame Rate Support
Videos encoded with a "standard" broadcast timebase play out smoothly with frames automatically matching the channel's timebase.

Mind The Gap
Gaps, Overlays and Placeholders are easily visible and can be edited right away as Just Play Lite's playlist-based design makes it easy to structure the rundown.

SDR, HDR Color Spaces Support
Comprehensive compatibility for both SDR and HDR content, ensuring a seamless and secure broadcast playout experience.

Supported Codecs

- DV-PAL, DV/DVCPRO-NTSC
- DVCPRO, DVCPRO50, DVCPROHD, HDV
- All Apple ProRes Codecs
- HEVC (H.265)
- XDCAM EX/HD/HD422
- MPEG-2 , MPEG-4, H.264
- MPEG IMX (30, 40, 50)
- AVC-Intra, XAVC-Intra
- Avid DNxHD®/Avid DNxHR® (decoder)
- JPEG
- Apple Animation Codec

Supported Containers

- MOV, MP4, M4V
- MPG, MPEG
- MXF

System Requirements

- Apple Mac mini, Mac Studio, Mac Pro 2023 - Apple silicon (M1-M4).
- Apple macOS Sonoma, macOS Sequoia, macOS Tahoe.
- Support for AJA and Blackmagic Design video devices.
- One-time online access for license activation.
- For detailed system requirements please consult the online user manual or contact the ToolsOnAir staff.

Supported Frame Rates

- 25, 29.97, 30, 50, 59.94, 60.
- Supported frame rates are container and codec specific. Codec support depending on installed Apple Pro Codecs.
